

Annual Production Sale
MONDAY - 1:00 PM MST
FEBRUARY 27, 2023

DILLON LIVESTOCK AUCTION - DILLON, MONTANA

Offering

125 PAP TESTED YEARLING & LONG YEARLING BULLS
9 REGISTERED REPLACEMENT HEIFERS
40 COMMERCIAL REPLACEMENT HEIFERS

W E L C O M E

Welcome to our 16th Annual Production sale to be held at the Dillon Livestock Auction in Dillon, Montana on Monday, February 27th. Our customers continue to be the driving force behind our business and we strive to produce fault free, balanced trait cattle that will add value to your operation. We appreciate the confidence you have placed in our program. If you are a newcomer considering us as your seed stock provider, you can be assured we will work hard to earn your trust.

We have just returned from the National Western Stock Show in Denver as we write this letter. We are off to a white, cold winter and calving has begun. The moisture is certainly welcome and many parts of the country are in good shape for snowpack, at least to date.

The demand for Angus cattle remains with quality Angus bringing a premium, it surely pays to select superior genetics backed by a program that breeds cattle that not only survive, but thrive, in high altitude conditions.

This year's offering includes 125 yearling and long yearling bulls that have been fertility, PAP and BVD tested as well as Angus GS tested for genomic enhanced EPDs. In addition, 9 registered open heifers and 40 home raised open commercial heifers will sell.

The cattle were raised in the Wise River high country and are now on feed at Hansen Feedlot (Just past MM6 on Hwy 91 North, Dillon, MT) and are available for viewing until Saturday, February 25 and at Dillon Livestock Auction thereafter. We are pleased with their condition, growth and excellent dispositions.

We hope to see you sale day but if you are unable to attend, we are offering two options for bidding online via Northern Livestock or Cattle USA. Please see Page 2 for instructions. Again, we appreciate the opportunity to be your seed stock source and invite you to come evaluate the cattle and enjoy a beef lunch beginning at 11:30 on Monday, February 27th. Please contact us if you have any questions or if you would like to view the cattle.

MONDAY, FEBRUARY 27, 2023 – 1:00 PM MST

DILLON LIVESTOCK – DILLON, MT

ANNUAL PRODUCTION SALE

MONDAY, FEBRUARY 27, 2023

DILLON LIVESTOCK AUCTION
DILLON, MONTANA

Lunch 11:30 AM MST | Sale 1:00 PM MST

SALE DAY CONTACTS

Dillon Livestock Auction.....406-683-2002
Cory Lamey Cell.....406-491-7363
Kari Lamey Cell.....406-491-1800

SALE LOCATION

Dillon Livestock Auction is south of Dillon and east of Interstate 15. Take Exit 56 and head north or Exit 59 and head south.

AUCTIONEER

Joe Goggins.....406-861-5664

REPRESENTATIVES

Kurt Kangas, American Angus Association.....406-366-4190
John Goggins, Western Ag Reporter.....406-698-4159
Jeff Thomas, AgriMedia.....406-581-8859
Devin Murnin, Western Livestock Journal.....406-696-1502
Sam Fraser, Northern Livestock Video.....406-860-0590

INSPECTION Cattle may be inspected at Hansen Feedlot, Hwy 91 N (just past mile marker 6 on west side of Hwy) any time prior to the sale. They will be available for viewing at the sale site beginning Saturday, February 25, 2023.

WINTERING Free feed until April 1, 2023 and then \$3 per head per day thereafter.

DELIVERY Free delivery on bulls up to 750 miles and at cost thereafter. If you choose to haul your own bulls sale day, we will deduct \$100 per head (bulls only). Buyer is responsible for heifer trucking.

BIDS/SIGHT UNSEEN GUARANTEE

If you are unable to attend the sale, please call us, the Publication Representatives, or the Auctioneer, and we will assist you with your order and offer a sight unseen satisfaction guarantee.

SALE ORDER Commercial heifers sell first, followed by fall bulls in catalog order, then yearling bulls in catalog order, and registered heifers sell last.

ACCOMMODATIONS

Fairbridge Inn Express.....406-683-3636, ask for Circle L rate.

ANNOUNCEMENTS

Check CircleLAngus.com for a supplement sheet with up-to-date information. All announcements made from the auction block take precedence over printed material in this sale book.

FIRST BREEDING SEASON GUARANTEE

All bulls selling for \$3,250 or more will be covered 50% by Circle L Angus if they are injured during their first breeding season. This guarantee does not include death as that can be insured for. Breeding season is defined as a 60-day period following the first turnout of bulls. Fifty percent of the value of the injured bull, minus one-half the salvage value, will be given credit in a future Circle L Angus sale or towards a replacement bull if one is available. Salvage value, if any, will be split equally between Circle L Angus and the buyer. All injured bulls must be diagnosed by a veterinarian. We also reserve the right to a second opinion by a veterinarian of our choice. Please notify us as soon as possible should injury occur and prior to the injured bull being sold for salvage. All claims must be made by September 1, 2023.

FERTILITY Megan Igo, DVM performed a breeding soundness exam, semen test, scrotal measurement and BVD test on all bulls.

HERD HEALTH All bulls and heifers were vaccinated with Pyramid 5+ Presponse, 7-way with Somubac, wart vaccine, Fusoguard plus booster, and Pour On. All dams of registered cattle selling have tested negative for Johnes disease.

PAP TEST All bulls in the offering have been PAP Tested by Tim Holt, DVM and Pap Testing expert. Circle L Angus spring bulls were born at 5860 feet and summer ranged from 6000-8500 feet from June to October. The fall bulls ranged at 6000 feet from April through October. All the bulls were PAP Tested in Wise River and the PAP scores are in this catalog. For more information or recommended scores specific to your operation, contact us or Dr. Tim Holt, DVM at 970-596-1470 or timholt@colostate.edu.

RETAINED INTEREST Circle L Angus is retaining one-third revenue sharing semen interest in any bull sold in this sale. Full possession and full salvage value sells on all bulls.

TERMS AND CONDITIONS This sale is being conducted under the suggested sale terms and conditions adopted by the American Angus Association.

GENOMIC ENHANCED EPDS

Sale bulls that have genomic enhanced EPDs through the GeneSeek test are noted by this logo.

EPDS AS OF JANUARY 20, 2023

ABSENTEE BIDDING OPTIONS

Setting up your absentee bidding option a few days before the sale is recommended.

1.

WATCH AND BID ON NORTHERN VIDEO

**View Cattle Videos at
northernlivestockvideo.com**

Signing up to bid on your desktop:

1. It is best to use the Google Chrome web browser.
2. Pre-Register at least one day prior to the sale.
3. Go to bid.northernlivestockvideo.com and click "Get Approved to Bid".
4. Doing this will prompt you to create an account, after which you will fill out a bidder approval application.
5. Once Approved, an email will be sent to the email account provided, please click the link in that email to activate your account and a buyer number will be provided.
6. On sale day (after approval), visit www.northernlivestockvideo.com to view and bid!

Signing up on your phone:

Use your mobile device to download the Northern App and follow the above steps to get approved. There is an instructional video on how to register to bid on our website, if you have any questions.

For technical assistance with Internet Viewing and Bidding Questions, call Sam Fraser 406-860-0590.

2.

WATCH AND BID ON CATTLE USA

Visit cattleusa.com and pre-register for bidding. Click on Dillon Livestock Auction and login to your account or set up a new account if you have not bid before. Once logged in, click the Submit button next to Beaverhead Livestock Auction to obtain pre-approval. Please pre-register 24 hours in advance of the sale. If you have questions, call Dillon Livestock Auction at 406-683-2002.

This institution is an equal opportunity provider and employer.

American Angus Association \$Value Indexes

Dollar value indexes, or **\$Values**, are a tool used to select for several traits at once based on a specific breeding objective. An economic index approach takes into account genetic and economic values as well as the relationships between traits to select for profit.

ANGUS
THE BUSINESS BREED

Maternal Weaned Calf Value (\$M), an index expressed in dollars per head, predicts profitability differences in progeny due to genetics from conception to weaning. \$M is built off of a self-replacing herd model where commercial cattlemen replace 25% of their breeding females in the first generation and 20% in subsequent generations. Remaining cull females and all male progeny are sold as feeder calves. Increased selection pressure on \$M aims to decrease overall mature cow size and improve foot structure and fertility while maintaining weaning weights consistent with today's production.

Weaned Calf Value (\$W), an index expressed in dollars per head, provides the expected difference in future progeny preweaning performance from birth to weaning. \$W assumes that producers retain 20% of their female progeny for replacements and sell the rest of their cull female and male progeny as feeder calves. Over time, increased selection pressure on \$W will increase weaning and maternal milk traits while also continuing to increase mature cow size.

Feedlot Value (\$F), an index expressed in dollars per head, is the expected average difference in future progeny performance for post-weaning merit compared to progeny of other sires. The underlying objective assumes commercial producers will retain ownership of cattle through the feedlot phase and sell fed cattle on a carcass weight basis with no considerations of premiums or discounts for quality and yield grade.

Grid Value (\$G), an index expressed in dollars per carcass, is the expected average difference in future progeny performance for carcass grid merit, including quality and yield grade attributes, compared to progeny of other sires.

Beef Value (\$B), an index expressed in dollars per carcass, facilitates simultaneous multi-trait genetic selection for feedlot and carcass merit. \$B represents the expected average differences in the progeny postweaning performance and carcass value compared to progeny of other sires. This index assumes commercial producers wean all male and female progeny, retain ownership of these animals through the feedlot phase and market these animals on a quality-based carcass grid.

Combined Value (\$C), an index expressed in dollars per head, includes all traits that make up both \$M and \$B with the objective that commercial producers will replace 20% of their breeding females per year with replacement heifers retained within their own herd. The remaining cull heifer and steer progeny are then assumed to be sent to the feedlot where the producers retain ownership of those cattle and eventually sell them on a quality-based carcass merit grid.
